Why is Congressman Schiff Voting for war? HERE ARE THE FACTS:

- **Congressman Adam Schiff** voted on **December 17, 2010**, without debate, for funds which will continue the wars in Afghanistan and Iraq, and for the largest Pentagon budget in American history. (for roll call of vote google "HR 6523 roll call vote")
- **The war in Iraq alone bore a cost of at least \$50,000 for every American family of 4 between 2003 and 2008, or \$5 TRILLION.** The total cost of wars is much higher when you figure in the cost of military operations in Afghanistan. What would you do with this money? Pay off a mortgage? Make sure your kids finish college? (google: "Economist Stiglitz Says Iraq War Costs May Reach \$5 Trillion" by Thomas Keene)
- **According to the Congressional Subcommittee on National Security and Foreign Affairs, chaired by Rep. John Tierney, the Pentagon is knowingly paying the Taliban for safe passage of military supply convoys.** We are probably the biggest funders of the Taliban. - **Afghans themselves report** that our military presence is leading many to join the Taliban in order to fight the foreigners and are thereby being radicalized.
